Customer Profile: Access Closure

Business Summary

Access Closure, Inc., located in Mountain View, CA, specializes in solutions to address complex challenges in the cardiovascular and peripheral vascular markets. The company was founded in 2002 and has grown rapidly by providing innovative and patient-friendly vascular closure devices. Access Closure products help close the vascular access site faster and enhance patient comfort. The result: patients often get out of bed and out of the hospital sooner thanks to Access Closure devices.

Quality System Goals

- Implement streamlined compliant quality system processes.
- Enhance timeliness of information and actions related to quality system records.
- Easily support the continued growth of the company.
- Include people into the quality system who are located at many different locations.
- Validate the system easily, quickly and cost effectively.

Solution

Access Closure has implemented the Grand Avenue CAPA, Document Control, Nonconforming Materials and Training Management modules.

Results

The Grand Avenue system has:

- Helped the organization achieve necessary quality system compliance.
- Seamlessly and economically handled the rapid expansion of the company over the past several years.
- Been implemented quickly.
- Been validated with each new release using Grand Avenue provided validation documentation.
