

GRAND AVENUE SOFTWARE
solutions for collaborative intelligence

Customer Profile: Altimate Medical, Inc.

Business Summary

Altimate Medical manufactures standing frames and mobility aids that enhance health, quality of life, and independence for people with disabilities. Their customers include children and adults with disabilities such as paraplegic and quadriplegic spinal cord injuries, Muscular Dystrophy, Multiple Sclerosis, traumatic brain injury, Cerebral Palsy, Spina Bifida, stroke, ALS, and more.

Quality System Goals

- Integrate and automate the core elements of the quality and compliance system.
- Streamline and simplify processes where possible.
- Improve the timeliness of quality actions.

Solution

- Altimate Medical is leveraging the automated quality solution from Grand Avenue Software.

Business Results

- Increased visibility, timeliness, follow through, and closure of quality and compliance actions and activities.
- Shortened timeframes on approvals and implementation of actions.
- Improved access to the most recent documents.

“We were searching for a quality system solution that would be easy to use, easy to deploy and upgrade, easy to validate, and with a low cost of ownership. Grand Avenue was the only offering we found that met all these needs. Grand Avenue has delivered as promised.”
